effects

The world's first application, it can remove wrinkles in 5 minutes after applying once and experience the effect of thread carving Lifting, firming, wrinkle removal, brightening...all in one go!! To put it simply, GPT gold thread carving is to implant a variety of polymer PPDO absorbable protein threads in a multi-layered way, which can dissolve and promote collagen regeneration, so as to achieve facial enhancement, contour shaping, smoothing wrinkles, and firming elasticity. purpose.GPT gold thread sculpture adopts the perfect fusion of top high-tech anti-aging patented ingredients and nano-gold, promotes the division and proliferation of fiber thread cells, promotes the regeneration of collagen and elastin, reconstructs the dermal fiber frame, effectively reduces wrinkles, and sculpts Facial contours improve skin texture and restore youthfulness.

characteristics

Golden thread carving is to use PDO thread to enter the skin and produce strong stimulation inside, so that the skin produces collagen to wrap the thread, lift and tighten, and fill the skin with proliferated collagen. rebuild the dermal fiber framework, effectively reduce wrinkles, sculpt facial contours, and improve Skin texture returns to youthful state. To simply understand, it is to use the function of the wire to pull apart and fix the wrinkled leather. After 3 months, you can clearly see the law lines fade and disappear, and this effect can be maintained for 2 to 3 years.The world's top high-tech anti-aging patented ingredients and the perfect fusion of nano-gold, promote the division and proliferation of fibroblasts, promote the regeneration of collagen and elastin,
