Product Description

JUVÉDERM VOLLURE Hyaluronic Acid Derma Filler

JUVÉDERM VOLLURE is designed to smooth deep wrinkles, as well as gently restore natural-looking contours in the lower face. Over time, the cheeks, chin and jawline area can be impacted by the natural aging process including a loss of volume or definition, and the appearance of deep nasolabial folds. This hyaluronic acid-based filler provides a versatile treatment option for patients who are looking for a discreet, natural look with minimal swelling and long-lasting results.

Treated areas

Juvéderm Ultra is injected into the following areas:

Fine lines such as:

Peri-oral wrinkles

Peri-orbital wrinkles

Forehead wrinkles

Glabellar lines or lion's wrinkle

Slightly marked nasolabial folds

Slightly marked marionette lines

Lips

Etc.

How does the treatment work?

The treatment can be done in 15 minutes but it can also take longer, depending on the area to be treated.

The professional in charge of your treatment injects the product using an ultra-thin needle under the surface of the skin. For fine lines, the product is injected at the surface of the skin. For marked wrinkles, the injection is made at a deeper level.

Please note that the injection of Juvéderm Ultra requires a medical gesture that can only be carried out by a doctor (doctor specialised in dermoesthetics, dermatologist or plastic surgeon).
